USHA INTERNATIONAL

This Cool Mist Ultrasonic humidifier comes with a water tank capacity of 4.5l. It features eight variable mist output controls each with its own melody. The integrated rotating water disc filter traps germs and other harmful substance in the water tray, thereby emitting ultrafine and clean moisture into the air. The humidifier is equipped with an auto-off function that switches it off when the water tank is empty. It is also fitted with a demineralization cartridge that softens hard water ensuring longer machine life. It alleviates dry skin, allergies, cold, flu and other symptoms that are caused by dry air, while its modern vase-shaped design makes it a stylish addition to any room.
