

NEW LAUNCHES

Debuting in the India, these trendy new products offer something different for hotels and restaurants

Elanpro Flexi Drawer

➤ Elanpro, a commercial refrigeration company, launched a range of integrated refrigeration drawers with variable temperature option. Flexi Drawer is a fridge and freezer model that fits underneath countertop in place of cabinet. It preserves the cold air providing temperature control for food items. With no visible grilles or hinges, the product seamlessly merges with the décor and provides convenient storage solutions. It can be used in restaurants, hotels, ice cream parlours, stand-alone units and food vans. A suitable product for refurbishment, these drawers do not allow condensation or dehydration of food products.

Viega Advantix Vario shower channel

➤ Irrespective of its size or shape, it is now possible to design shower channels in many variations. From long to short, in L-shape or in a U-shape, three connecting elements gives the Viega Advantix Vario shower channel a high level of flexibility. The strength of the Viega Advantix Vario Shower Channel lies in its individuality. It can be shortened exactly to the required length. On the other hand, even at a low installation height, it gives an impressive drainage capacity of 24 litres per minute, which is sufficient to reliably drain high-performance wellness showers. This shower channel, which can be made to measure, has been designed by Artefakt Industriekultur, the Darmstadt design agency has been recognised by many prestigious entities.

Decowood Distressed Veneer

➤ Decowood from the house of Greenlam Industries has introduced the Distressed Collection range of premium veneers.
