National, Feb 08, 2022: Greenlam Industries Ltd., among the world's top 3 laminate manufacturers with its flagship brand Greenlam Laminates, Decowood Veneers, Mikasa Floors & Mikasa Doors & Frames, today announced its unaudited consolidated financial results for the third quarter and nine months ended on December 2021.

Speaking about the results Mr. Saurabh Mittal, Managing Director and Chief Executive Officer, Greenlam Industries Ltd. said, *"This quarter our consolidated topline grew by 34.4% on year-on-year basis to Rs. 449.7 crore. The growth was led by the laminate business owing to the improved product mix and price hikes, however, volumes remained flat. The performance was impacted due to disruption at the Behror plant which was temporarily shut for a period of 7 days and thereafter operated with restrictions as per the guidelines of CAQM (Commission for Air Quality Management) on pollution related issues in National Capital Region. This disruption, however, impacted our revenues and margins and led to higher raw material inventory. Our net profit for the period stood at Rs. 26.9 crore, net working capital days stood at 76 days and net debt stood at 178.5 crore.*

The company, in Dec 2021, announced to invest Rs.950 crores over a period of 2-3 years, towards setting up its third Laminate plant and foray into two adjacent categories - Plywood and Particle Board. The investments in third Laminate plant and Particle Board will be done under Greenlam South Limited, a 100% subsidiary of Greenlam Industries Limited based at Naidupeta, in Andhra Pradesh. The dedicated Plywood manufacturing facility will come under the newly acquired subsidiary HG Industries Limited based at Tindivanam, Tamil Nadu. This expansion will position Greenlam from a decorative surfacing company to a leading integrated wood panel player.

At Greenlam, we always believe in serving our customers with only the best. Our constant endeavor is to bring superior products, which are developed using the latest industry-first technology that aid them to redefine their living spaces."
