Revamp your home décor this winter with laminates from Greenlam

It is that time of the year again when you may be experiencing a cool breezy wind and all you want to do is drop your chores and work from home to curl up with a book and a steaming cup of chai or coffee. Seasons are more than just weather changes; they are a great opportunity to upgrade the interior of your home. With the start of winter upon us, homes can tend to look dull and gloomy.

However, now is the perfect time to revamp your space inefficient ways to suit the season. A great way to combat the dullness and chills is by playing with textures in hues of warm and nature-inspired colours. Here are a few tips to transform your home interiors into a relaxing space this winter:

Greenlam AFX Surfaces for easy breezy maintenance

With the chilly weather outside, forget bold and bright, and switch to cool and breezy. While colours might be the quickest way to liven up your home, maintaining the finish is just as important. Adding products that are easy to clean and give a matte effect to your interiors is as critical as selecting a colour. With newer trends emerging each day, mundane colours have taken a back seat. Muted colours like shades of blue and lavender which are eye-soothing and calming are now in demand.

For a matte finish and effortless maintenance, we suggest Greenlam's anti-fingerprint laminates and compacts. These are the finest ultra-matte surfaces with a unique anti-fingerprint feature. Inspired by timeless beauty, these surfaces look elegant as ever leaving a vivid mark on their admirers all the while keeping them spotless. The laminates and compacts are anti-bacterial, anti-virus, almost zero reflection surfaces, hydro-, mould- and scratch-resistant, making for easy maintenance this winter season. These are also equipped with dimensional stability and non-toxic emissions for safety and hygiene.

Greenlam Satin Surfaces for surfaces like silk

Colours, designs and finish are very crucial in home décor. With the change in trends, consumer preferences have evolved towards premium and niche products. While gloss surface finish has been in fashion for the last couple of years, the demand for a zero-gloss surface finish is gaining momentum. Keeping up with the trends, consumers are now leaning towards the imitation of luxury, creating the perfect balance between comfort and elegance. To attain both comfort and luxury in your home décor, we suggest considering Greenlam Industries' Satin Surfaces. This comes with a smooth finish that is soft to the touch and is available in a myriad of stunning colours, patterns and wood designs.

The wood design with a satin finish offers the best of both worlds — beautiful designs with a soothing, matte finish without compromising on performance. The patterns are curated with textures for high-touch areas and designs which impart a warm, pleasing effect that enhances the beauty of colour and produces excellent clarity and depth for any application. Along with a pacifying experience, these laminates also come with many excellent features such as abrasion-, stain-, impact- and scratch-resistance and are also equipped with anti-bacterial, anti-fungal and anti-ageing properties with dimensional stability and non-toxic emissions for safety and hygiene.
