

# EXPLORE LIFE IN A NEW COLOUR!

Explore the irrepressible fun and spontaneity that come with the new colour of the year — Living Coral — because it's that change in little things which matter the most!

Every year Pantone releases a colour for the year, which embraces us all with warmth and comfort and sets the ball rolling for colour trends in fashion and decor.

The colour for 2019 is "Living Coral", which symbolizes our craving for playfulness and optimism. Inspired by the rare coral reefs, this shade resonates freshness and vivacity and fits with both minimalism and maximalism decor.

Shifting the colour scheme from violets and blues, Living Coral embodies the fusion of nature and modern life. Emitting desire and energy, this shade is sure to take the industry by storm and glorifying everything coming its way.

Let's find out some of the ways in which you can get charmed by Living Coral by adding it to your interiors:

## PARALLEL TONES

Living Coral has the potential to invigorate and enliven your space with minimal effort. There are various colour palettes which will help you bring out the dynamic nature of this color and make your home a beauty to behold!

Pair Living Coral with pearly white laminates and classic dark premium real wood floors. These shades will create a welcoming vibe to your decor and encourage a deeper connection to your space.

If you are looking to entertain a simple and effortless decor by adding extremely limited shades to your colour scheme, peaches and greys would make for a stunning companion with Living Coral. These colours complement each other extremely well and bestow

upon your home innocence and divinity.

For the ones who prefer a vibrant and bold palette, go for a vivacious burgundy with a gorgeous dark lilac tint which will spread exuberance to your space. This new year, put your creative shoes on and make your house a canvas of your artistic imagination.

## IT'S ELEMENTARY!

Colouring all the walls in one shade may not suit every one, which is why it is always a good option to bring in elements of a certain colours to your home. There are a lot of elements in your home where you can mix and

match your décor — curtains, rugs, wall art, cushions, plants, and table mats, for instance.

Patterns are in trend and can be used to add character to your home.

Make a chevron patterned design with decowood veneers in Smoke Knotty Pine and let your room have a personality of its own. Place statement pieces to accompany this pattern, such as an elegant real wood table with Living Coral table mats or crockery to set a bold vibe to your dining area.

In addition, place a light tanned single-drawer night stand with a peach shade metallic lamp and a showpiece in the shade of Living Coral. Similarly, by adding a cozy hand-knit blanket and chevron-patterned cushion covers and a collage of Living Coral and monochrome pictures, it would be extremely easy to have a vintage era in your living room.

## CLASSY SHENANIGANS!

Who doesn't love a warm and cozy little corner after a long and tiring day at work?

It's easy to create a desirable corner and have a relaxing time where you drink coffee or read a book! Decorate it with an accent chair in the shade of Living Coral and add a gorgeous coffee table with light grey mugs and a little plant to complete the whole look. Apart from adding an ecstatic charm to your space, it will look more wholehearted.

You can also shift this trend to your bedroom by having Living Coral bedsheets and covers and matching them with curtains of the same tint. Living Coral is one of those shades which is acquired, leaving you craving for more. — Parul Mittal (The author is director of Greenlam Industries Ltd)
