Game of Tones

July 2019

The house of Greenlam Industries has introduced Oak Smokehouse and Ash Fresno by Mikasa premium engineered wooden floors along with Oak Tar by Decowood premium veneers. The chocolaty shade of Oak Smokehouse can be paired with rustic pieces in terms of a statement grungy table with complementing chairs and give it a distinct look, while Ash Fresno can be paired with an all-white décor to make them shine while keeping the rest of the décor minimal. Oak Tar aptly provides a sense of sophistication and elegance to washroom spaces. In addition to accentuating the element of premium veneers, this shade can provide a pop of vibrant colour to a monochrome décor.
