*After a long day, you want a place that makes you feel at peace, helps you relax and gets you ready for the next day. The endless possibilities of bringing out the best of décor leads to you injecting the best of your personality into your interiors with the right colours.*

You haven't for unwinding, and introspective solitude is your home, that brings out the best in you and hence, that is the place you should invest in for the purpose of mental stability. From trying out a completely new colour scheme to bringing statement pieces to your space, make your home a sweet harbour where you can unwind in style.

Read on to understand what is required to get the right mix of shades and patterns that eventually help in refreshing the vibe in your home.

## Beat the blues

A **bold colour** for the bolder you, with a touch of enchanting and bright add-ons, is necessary to invigorate yourself after a hard day's work. While it is interesting to mix and match shades, one can never go wrong with contemporary décor. You can start with an accent chair paired with an equally brightly coloured ottoman that looks distinct to the eye. Create a haven where you can take a breather and slow down from your fast-paced lives. Elements such as mini geometric showpieces, a mini library, tiny succulent plants add sophistication to your space. Having said that, adding hues of deep brown with this decoration will instantly elevate the look and feel of your interiors.

Amidst such exuberant elements choose laminates which are available in striking tones and chiselled wooden textures. When it comes to creating a space for yourself, personalise it with hand-made artworks, antique pieces and quirky photo frames.

## A blush ecstasy

When it comes to adding your personality to your space, your best bet is a chalk grade laminate. The chalkboard surface ensures perfect continuity with chalk marks for hassle-free and readable writing and renders excellent contrast against chalk marks.

**When it comes to rejuvenation**, sketching and doodling are some recreational activities that help you regain your mental peace. Let your passion out and shine through with vibrant colours as these laminates come with a special surface which assures smooth writing. Sketch your imagination as creativity has no bounds. It is the power of thinking and making a place or corner beyond your imagination. These little corners in the house add to the zeal, help you relax and bring back the best in you.

Chalk grade laminate is becoming the latest buzz and is versatile, suitable for various spaces such as your kitchen, bedroom, the kids playing room or even your meeting room. One can explore this laminate for writing personal notes, recipes in the kitchen, meeting agenda or end-up discovering the hidden doodler within you. Chalk grade laminates provide an elegant appeal to your space and complement your furniture.

## Regal serenity

For the ones who want a comfortable abode along with royal colours, we have the perfect décor for you. Be it a cosy nook where you read your beloved books or a little hideout where you feel at ease, we all have a space in our homes which makes for a respite from our busy lives. What makes that corner special is the memories that are associated with it. Be it a combination of classic with a hint of modern decor, or a rustic and dramatic one; it reflects your personality.

With Pantone colour of the year being classic blue, you can bring out the blue accents and make them as mini décor pieces to further create a chronicle in your space. Allow your walls to reflect royalty by splashing undertones of navy blue, sapphire or teal. These days, open shelf wooden laminates are becoming a rage, and with mineral oak laminates, you can beautifully complement your showpieces with a breathtaking woodgrain pattern.

It is the little corners in your house that make you feel like home. So, clear your mind and create a divine retreat of your own.
