

Spring Summer Trends 2019

By Parul Mittal, Director, Greenlam Industries Ltd.

As the slight chill in the air fades away, the first buds of spring have started to blossom. With these transition in the season, let your home come alive with playful hues and flawless freshness. It's time to put away your blankets and woollen rugs for something that's a little more fun and quirkier. From natural and organic materials to a plethora of colour schemes and palettes, there is something for everybody! With the sun up in the sky, let's get ready for a relaxed renovation. Share in the secrets to reviving the essence of spring at your home:

BRIGHT, BOLD AND BEAUTIFUL

The most basic aspect of creating your own interiors is getting the right colour scheme. Step aside from the earthy shades and embrace the energetic and lively colours that this season has to offer. Rich reds, sunshine yellows and pretty purples are some of the tones which will set the ball in motion for this season.

Vibrant colours give a boost to your subdued furniture by giving it a pop of exuberance and passion. Tints of colour such as Red Flame, Lush Green and Lapis Blue, NewMika's Woodgrain laminate collection is all set to be your perfect partner in decorating your home with stunning hues. While Red Flame exudes fierceness, Lush Green and Peacock Blue comfort you with buoyancy in this continuously shifting environment. This season be brave with your colour choices and experiment with these majestic colours to give your home a sophisticated yet dynamic vibe.

LESS IS MORE

When it comes to furniture, it's no surprise that classy furniture pieces have the potential to make or break your space. In a subtle or an all-white interior space, by incorporating a bright burst of intense colour schemes in your furniture will make your décor stand out without upsetting the overall theme of your home. For instance, add pops of cheerful colours such as Blue Galaxy that look striking to the eye. Capture the essence of spring by reflecting the spirit of it in your home. Add custom made digital laminates which have patterns digitally printed on them. Get inspired by these enriching florals and your own design which can be converted into a laminate!

BLAST FROM THE PAST

When we talk about décor trends from the retro era, natural elements were a big rage. Well, nature inspired decorations are back to up the aesthetic quotient for your home. Walking away from the technology, this season moves towards fresh and pleasant accessories such as sustainable and natural fabrics or fur for a calm and cosy vibe.

White linen curtains paired with Decowood Distressed Veneers give a grungy and rustic look that adds a certain element of peace to your home. You can also incorporate a statement furniture piece in distressed veneer for a centre table paired with vintage brass lamps to complete the washed and grungy look.

Reimagine your home with these magnified spring summer trends and with these unconventional designs, craft the home of your dreams!
