Add tiny elements to complement this beautiful blue hue, with miniature showpieces such as a jar or an alarm clock. To take this rustic spirit up a notch, install rustic beech and create your own easy to maintain a wooden antique touch. Balance the look by including grey tones in the form of wall art.

No matter the season, a glorious piece of art that always stands out in a house is an element of classic wood. Adding different textures of wood to your abode adds drama and uniqueness.

You will be surprised how a premium wooden floor can create a relaxed and countryside feel to your abode. Woods like the Oak Winter give you a mesmerising winter feel combined with natural and effortless transformation. Add some greenery with potted plants and make your house one with nature.
