Indian benchmark indices rallied sharply on Monday, with the Nifty surging 312.40 points, or 1.32%, to close at 24,031.70, while the Sensex jumped 1,073.61 points, or 1.42%, to end at 76,488.96. Market breadth remained firmly positive as advancing stocks outpaced losers.

Analysts attributed the rally to easing crude oil prices and improving global sentiment amid expectations of progress in a possible US-Iran deal. Large-cap stocks led the gains, supported by attractive valuations and strong quarterly earnings from financial companies.

Auto and realty stocks also witnessed buying interest.

According to Geojit Investments' Vinod Nair, softer global bond yields and signs of stability in the rupee further supported sentiment. However, he noted that sustaining the rally would depend on easing geopolitical tensions and continued stability in crude oil prices.
